

Apricot - 10th Anniversary Brew 10% ABV

At Three Boys Brewery we personally tend each small-scale brew, right from selecting the best malt and hops until it leaves the brewery. Our beers are a living product; not filtered and not pasteurised - just as nature intended. Our aim is simple: finest quality beer, finest possible taste.

Our beers are brewed, bottled, and canned on site so you can guarantee quality and freshness every time.

Tasting Notes:

Using apricots foraged from the vacant Red Zone properties in one of the valleys here in Christchurch we've created this special once in a lifetime 10th Anniversary beer. Ripe apricot combines with fruity esters and a subtle toffee malt to give a rich & complex aroma. A warming brew with a lingering apricot flavour which balances with the layers of soft tartness and big malt body.

Available in 330ml bottles while stocks last!
